David is AMAZING!!! My husband and I had a short engagement and didn't know a thing about planning a wedding much less writing our vows. David answered right away and really came through for us. He answered all of our questions, wrote our vows and stayed in touch with us. David added special details in our vows that meant so much to us. On our big day David showed up early (thank God because we were so nervous), he talked to my husband and made him less nervous. He even had tissue for when we both started crying (we cried a lot)! David added a touch of humor that we loved and needed. David offers a live stream of the wedding that was wonderful for our family due to COVID. We now consider David a part of our family. I can't say enough good things about David, he is simply amazing!
